

# Striking New Look at Surrey School

## Altro Whiterock & Altro Chameleon

Caterham School in Surrey has been given a new lease of life by Altro, after replacing the wall cladding throughout the campus for a striking new look.

A full range of Altro wall products were chosen for the project, including Whiterock pastel wall cladding in the kitchens, Chameleon wall cladding in the bathrooms, and Zolatone wall coating in every corridor in the school.

Whiterock is a grout free, alternative to tiles that is ideal for areas where hygiene is important. Altro Chameleon is perfect for areas such as shops and bars where aesthetic value is vital. Using the latest Altro technology, Chameleon provides a welded joint resulting in a better hygienic finish.

Altro Zolatone is suited to areas that come under a lot of daily wear and tear such as corridors. This cost effective, highly attractive wall cladding can be easily patched repaired if needed. Zolatone has a water-based formulation that results in an odourless installation.

*“We were really delighted with the range and finish of the products available from Altro. The finished effect looks great and has really given the school a really modern feel. We have more projects in the pipeline, all of which I will definitely be using Altro products for.”*

**Robert Charlesworth, Caterham School**

*“With the wall cladding especially, we really needed high quality products as we have had problems in the past with tiles as they can crack and go mouldy. With Altro wall cladding, this problem is eradicated, leaving smooth, durable walls which not only perform, but look great too.”*

**Ian Henham, Miler Bourne Partnership**
