

Altro Makes The A Grade

Altro Whiterock & Altro Chameleon

Atkins needed a striking, modern look for its Leeds office. Altro, the interior surfaces specialist, supplied the ideal products to bring Atkins' cutting-edge design to life.

Using the colourful and versatile Altro Chameleon wall cladding together with the latest computer cutting technology, Altro installed the attention-grabbing feature walls that incorporate clean, Altro Whiterock backdrops.

The dynamic and stylish scheme demonstrates the versatility of Altro's products, combining functionality with up-to-the-minute style.

As well as providing a vibrant and contemporary working environment for employees, the new walls are virtually maintenance free and durable enough to stand up to the wear and tear of a busy office setting.

Altro Chameleon is an easy to clean, impact resistant and low maintenance wall cladding that offers a high gloss finish in a range of stunningly bright shades.

"We're really pleased with the new feature walls. The bright colours and glossy finish have created an eye-catching feature within our new Leeds office, which reinforces our design quality ethos."

"We wanted a fresh, inspiring office environment for our staff to work in and feel that Altro's Chameleon provided a colourful solution, which gives the whole building a dynamic feel which also enables us to use and communicate our own branding in a new and exciting way."

Barry Paschali,

Managing director of the Leeds office of Atkins
