

# Altro's Easy-clean Solution for Fish and Chip Shop

## Altro's Whiterock

Owners of the Golden Bite decided to brighten their small shop, but were keen to maintain high levels of cleanability and ease of maintenance.

The shop's aging painted walls have been replaced with Altro Whiterock Chameleon hygienic wall cladding in the serving areas and Altro Whiterock in the preparation areas.

Altro's floor, wall, door and ceiling collections give designers the opportunity to specify products that are tailored to their exact needs. From stunning high design floors, to school shower blocks and even hygienic clean rooms, Altro is able to offer a solution. Specifying the right product is simple, thanks to Altro's specialised and highly experienced sales teams who are expert in all products, current legislation and installation issues.

*"The refurbishment has made a huge difference to the shop – especially the customer area. The Chameleon is so bright and eye-catching, it makes the shop look completely different."*

*"The walls are very easy to clean. Usually a quick wipe over is all that's needed to bring the wall back to looking brand new."*
